want it more

by n7punk

Summary

Catra used to have fantasies she thought she would never want in real life, but she also thought she would never be *wanted* in real life. She knows she can always trust Adora – even when she's actually She-ra. Sometimes letting go is bliss.
(Or, Catra bottoms hardcore for She-ra)

Notes

Hey remember when I used to do this. A bunch of my AUs recently have been horny but I didn't have the urge to write smut for them until this just appeared in my Word folder. Anyway you're not getting context cuz I don't have it either.

See the end of the work for more notes

She-ra is laid out in their bed, propped up against the pillows with one leg straight. The other is bent up so her knee is bracketing in Catra's hip to help steady her as she shivers on all fours over Adora, on top but nowhere near in control. Her entire body sways back on her knees when Adora wraps her hand around the base of her tail and *tugs*, shocking pleasure through her just as surely as the two fingers Adora is pulling her back onto do, movements slow but *strong* as she fucks into her.

Catra feels indecent and ruined, naked and *kneeling* as Adora lays out beneath her, fully dressed — in fucking armor — and watches Catra with dark eyes. Her hand on her tail might as well be massaging her clit with the signals it sends to her brain and the way Adora is repeatedly pulling her back onto her fingers is doing things for her she didn't even know it *could* outside of fantasies, but Adora has total control of her body right now because Catra handed it to her and Adora chose to use that hand to fuck her slow and steady.

"Adora," Catra whimpers. Adora gives a small groan under her breath. Just because she's in charge doesn't mean she's *collected*. She looks like she's two seconds from snapping – or coming, she doesn't seem to want to do anything more to Catra than *ruin* her and she really doesn't need to be doing anything else but this to accomplish that.

"You take me so well," Adora praises and Catra's answering trill ends in a whimper.

And *there* Adora snaps. Her hand leaves Catra's tail, which makes Catra give a small disappointed noise in the back of her throat that then is entirely muted by the hand cupping around the base of her neck and dragging Catra into a kiss, surprise fading into a groan as she parts her lips and Adora immediately licks into her mouth, taking it with her tongue the same way that her fingers are driving into Catra.

It's *torture*, because it's so hot and feels so good, but it's still not enough to make her come, and Adora is just going to keep doing it because she loves seeing Catra when she's so strung out that her arms are trembling and she can barely hold the position Adora wants her in. The fact she's She-ra right now makes it even worse. The way her fingers fill her, the way her mouth is slightly bigger as she kisses her, just makes Catra feel so small comparatively. It's so different to feel all of Adora's power and have every spark of it aimed at making her come totally undone with pleasure.

Two things happen at once that are very hard to process through the pleasure haze. Adora's hand shifts to wrap around her thumb around the side of her neck so she can press it beneath the corner of her jaw and turn her hearing staticky from the thrill impulses it sends through her, and Adora pulls her fingers out of her. That's- that's *unacceptable*. Just because Catra wasn't going to come from it doesn't mean she wants it to stop.

"*Give it back*," Catra whines pathetically into the kiss, and then two *more* things happen quickly. Adora uses her hand's stronger position around her head to pull her back from the kiss, and then she raises the two fingers she had buried down to the base in Catra up to her lips. Oh. A shiver of relaxation runs through Catra as she looks down at them and then back up at Adora.

She holds eye contact as she parts her lips and lets Adora push her fingers inside, fucking her mouth as Catra whines a little and then purrs. Her entire body burns. She feels so *empty* now and she's still posed exactly how Adora wanted to fuck her. She's only presenting to an empty room behind her and it's not quite shame, but it flushes her entire body in a similar way – a similar way that makes her want to come for a *week* around Adora's knuckles. She wants Adora's fingers back, but fuck, she doesn't want them to leave her mouth either, not when Adora is watching her suck on them like that.

Her gaze is dark, watching as Catra tilts her head back slightly so Adora can curl her fingers as she fucks her, straining her neck a little from the angle. Her arms are trembling already from all bracing, but that only seems to turn Adora on more, because her hand tightens on the back of Catra's head as she holds her exactly where she wants her so she can fuck her mouth harder.

"You're so beautiful," Adora breathes to her and Catra whimpers. She can arch her hips pointlessly, but she gets nothing except Adora's fingers in her mouth and the incessant press of her thumb at the base of her ear. She needs more, but right now Adora is taking what she wants and nothing could turn Catra on more. She loves when Adora wants anything, but especially *her*.

Adora took a while to convince herself that regardless of general preferences, Catra likes when she initiates demanding sex like this – when she takes Catra like she belongs to her how she always *has*. Catra took a while to grow so comfortable with it that she wanted it not just from Adora, but from the subject of her forbidden fantasies during the war who could – and had before – easily overpower her, but would never, ever push her any farther than she wanted and her body could take. Doubts may still wake her with long shadows at night, but when they're in bed naked together, she knows she could never be safer anywhere.

As dark as Adora's gaze is, it's soft, too, *adoring* as she watches Catra crumble beneath her, because Adora knows exactly how much it means for Catra to be letting her do this, and Catra is purring around her fingers now as Adora's hand around her head tightens and her fingers curl against her tongue.

"I'm so in love with you," Adora adds, voice just as soft, and she sounds like she *means* it, like she has never seen anything so worthy of devotion as Catra on all fours for her.

"Adora," this time, when Catra groans it, it's completely muffled by Adora's fingers in her mouth, but fuck, it *works*, because Adora's eyes flair bright blue and she suddenly pulls her fingers out of Catra's mouth. She hauls her up into another kiss as if Catra isn't already winded as her hand slips beneath her and she presses three fingers into Catra this time. Catra cries out, writhing a little, but Adora presses all the way in and doesn't stop going until *Catra* has nowhere to go, pinned between both of her hands and forced to stretch around her fingers. She can take it – she could take it even before she got so turned on that she couldn't think anymore – but it's just so much *more* when Adora is She-ra and she was just starting to – almost – forget how empty she was.

Adora's arm threading beneath her instead of hooking around her thigh like before at least gives her something to rub up against. At least, as much as she can move as Adora claims her mouth again. Catra almost wants to stop kissing to get that praise back, but panting against

Adora's lips is one of her favorite places to be so she just sinks down on her forearms a little even though it strains her neck even more. It lets their chests press against each other, the cold metal of She-ra's armor a shock to her burning skin that should remind her how vulnerable her position is but actually just makes her clench down around Adora's fingers.

Adora finally eases her fingers back, but only so she can press them in again, starting to fuck her steadily. With each thrust, Catra whines and rolls her hips, and Adora is pantingly heavily now too, but that doesn't stop her from pressing her thumb in harder against her jaw, commanding her to leave her mouth open for Adora to fuck with her tongue just as easily as she did with her fingers. When Adora finally pulls back enough for them both to breathe, all Catra can see is the glowing blue of her eyes. She swallows heavily.

"No. Keep your mouth open for me," Adora orders and Catra's hips jerk, her eyes squeezing shut. When she opens her eyes, she's pretty sure Adora is grinning, but she can't see much of it. Adora knows she can command and hold her with words alone now. Usually it takes a *lot* more to make her behave and that's half of the fun, but she's so far gone tonight. After another heavy swallow, she parts her lips.

"I'm going to be dehydrated after this," she jokes, but her voice is a desperate rasp, and she obediently leaves her mouth open after the final word. *Obedient*, how good is Adora – in every way, from sexually to morally – that Catra is willing to be that for her? Adora shifts her hand so her thumb can press in instead, running it over her fangs that she definitely has a massive fetish for, but for once Catra isn't in a biting mood, she just *wants to come*.

"I can't wait to spoil you," Adora promises, pulling her thumb out only because she's pressing two fingers into her mouth again instead, only this time she's being fucked from both ends and Catra gives up on begging for more, squeezing her eyes shut and just letting the pleasure take her. All she can do is roll her hips to try to get some friction against Adora's arm. It's so much. It feels so good – it's *torture* that she's not coming.

"There you go. Fuck, you're so gorgeous when you're desperate like this," Adora breathes, voice rough, and Catra gasps around her fingers but doesn't actually get much in the way of air because Adora's fingers are still pressing in against her tongue. She can't keep kneeling and arching her back like this. Her arms are trembling. The best warning she can give is a muffled noise around Adora's fingers before her arms give out fully beneath her and her cheek lands on the cutout in Adora's armor as she gasps. It's a relief to let her torso relax, but it makes her hips even more arched and means she can't get quite as much pressure grinding on Adora's arm where she needs it.

"*Catra*," Adora groans, so apparently that made her night. It feels like even the air is damp from Catra's desire, and Adora's too, every breath heady and every inch of the bed drenched in how badly they both need to come right now. Adora's now free hand runs down Catra's back and seizes the base of Catra's tail again, pulling her ass up higher and making her whine as Adora starts to fuck her *hard*, rocking her down into Adora's chest. Her hands try to scramble for *something* to hold onto and bury her claws into, but it's a lost cause.

"There you go. I'm going to take care of you, okay? I just want to hear all those adorable noises you make," Adora promises her. Catra manages a whine in response, but she knows that's not the *noise* Adora is talking about. She's breathless, but she mashes her face into

Adora's collarbones, breathes in the scent of both their desires mixing, and twitches her hips as Adora *mercifully* anchors her palm against her clit. Now, she does it so she can fuck her in a steadier rhythm, which arguably makes the burning *need* spreading through Catra worse, but it finally gives her the pressure she needs.

She gives small hitches of her breath with each thrust. Little purrs spike when Adora's hand tightens on the base of her tail. Whines stifle against Adora's skin when she relentlessly fucks her so close to the edge that her body won't quite tip over, and then she's *moaning* when she eases back from it and can breathe again as much as she would rather just tip over it. She's almost too turned on to come.

"Fuck, I want to tell you how beautiful you, but I don't want to miss a second of this either," Adora murmurs to her, head ducking so she can kiss her ear. Catra whimpers and Adora groans, tugging hard enough on Catra's tail this time when she brings her into a thrust that Catra almost can't hear her next words. "But I love you so fucking much and I don't know how to hold that back when you let me touch you like *this*."

Catra doesn't either. Her orgasm comes over her in a building tide of pleasure and static, every muscle tensing as everything goes black for a moment that feels like it lasts an *eternity*, pleasure peaking, cresting, and then washing out to sea as she clenches down on Adora's fingers and then the contractions run through her, shock of pleasure after shock of pleasure that Adora mercifully lets her body go through on its own, holding her fingers buried but *still* deep inside her as Catra mewls against her skin and then finally her arching hips go limp.

Adora lets her fingers slip out and eases her grip on her tail, gently guiding her down to lie limp over her. Catra couldn't take another orgasm after all the build up to that one. She's gasping, blood rushing in her ears, as Adora wipes her hand off on the sheets and then two firm hands are running down her back, petting her through it as little shocks send twitches through Catra's hips.

"Catra, that was *incredible*," Adora says like Catra was the one who just fucked her through a fantasy she was too ashamed to even fully have before it could become a reality.

"I know, I'm awesome," Catra mumbles into her collar bones. Adora laughs and her voice is so magical, so genuinely *charmed,* that Catra's tail – which frankly deserves a vacation right now, but a massage would only work her up again so Adora's careful pets will have to do – thumps down onto the bed beside them and her purr raises in pitch a little, the flustered tone coloring her post-orgasm pleasure.

"You are," Adora agrees, and her tone is laughing, but also *sincere* as her hands run down Catra's back. "You're so soft, and you're so hot with your back arched, and you feel so *good* when you clench like that, and fuck, your purr, why do you ever stop doing that?" Adora gushes. A shiver works its way through Catra's entire body this time. Adora can*not* keep talking like that.

"Careful or I'm going to need round two, and I'll pass out," Catra warns, voice heavy with lust. "And if I didn't shut up, you'd stop complimenting it," Catra adds, sighing happily as she nuzzles Adora's neck above her collar. Adora's hands stop petting her for a moment to hug her instead, head ducking to whisper in her ear.

"*Never*," she promises in a rough voice that sends a shiver through Catra. So she's going to wake up tomorrow to Adora whispering praises in her ears about anything from how beautiful she is to how good she is at sparring, she already knows. She can't believe she's in a place where that's her reality. She can't believe that has happened enough that it's not a *total shock*.

It's still going to hit her just as hard.

"Thank you for trusting me," Adora murmurs to her, kissing her ear as she returns to petting her. Catra's purr enters that deep register again.

"Don't be an idiot," Catra tells her, and even her words are soaked in endorphins as her body relaxes into Adora's. *Obviously*. That was… okay, frankly it was more intense than usual because Adora won't usually be that assertive as She-ra without them explicitly laying out a plan of what they're going to do beforehand and that takes the surprise out of it, but fuck, Catra doesn't *need* all those plans and assurances anymore, they're written into the stripes that Adora is tracing on her back.

"I'm never going to stop being awed by seeing you like that," Adora corrects, like *Catra* is the one being ridiculous. Catra trills, nuzzling her collarbones. At least, as much as is peeking through her armor.

"I don't have the strength to do anything except eat you out, but She-ra has to go," Catra tells her. She-ra doesn't react to stimulus the same way, which is great in battle, and not so great for sex and Catra doesn't have the energy left to fuck Adora the way Adora fucked her tonight. Adora chuckles, but she feels like she glows hotter beneath Catra for a second before she's dropping with a small yelp as the chest she's lying on shrinks.

"What, that thirsty?" Adora teases, arms coming around her to hug her again. Catra grumbles as she shifts her legs to tangle them together, intending to press her thigh up against Adora because she *can* manage that, but Adora shakes her head and kisses the top of Catra's. "You can get me off in the morning, I want to watch you blissed out. You're *so pretty*, Catra, I don't think you've got that yet," Adora continues like it's the most important thing in the world. Catra blushes and trills, quickly hiding in Adora's now soft and giving shoulder.

Adora certainly *smells* like she could use an orgasm, but Catra takes her word at face value in sex now. Early on, she thinks Adora denied things sometimes because she didn't want to be an *inconvenience* for wanting something or to be too kinky for Catra, but they crossed *kinky* awhile ago, and did Catra mention she just let She-ra pin her by fingerfucking her from both ends? They've come a long way.

Fine, morning praise sessions can go two ways, and Catra *knows* that will ruin Adora to have turned back on herself. Trust for Catra looks like her letting Adora top her without holding anything back. Trust for Adora is her lying back and letting Catra worship her the same way she worships Catra. She can tell her *exactly* how much she just blew her mind.

She can't wait. Right now, though, not moving sounds really good.

End Notes

It has been like two years since I wrote smut and might be two years until I do again, but I've been putting Catra through a lot lately and she deserved to just bliss out and let Adora take care of her for a bit LOL
