Queen Angella's Princess Maker

by DraceDomino

Summary

Queen Angella is a difficult woman to say no to. In addition to being Glimmer's mother, she's a QUEEN! That means Adora has to do whatever she says, right?

Even if it sounds like something crazy, like breed her? Adora isn't ALLOWED to say "No, Queen Angella, I don't want to get you pregnant." That's rough.

Queen Angella's Princess Maker
-by Drace Domino

Battles against the Horde, Adora could handle. Reporting their victories…that was a different story entirely.

The entire time Adora, Bow, and Glimmer walked through the hall en route to Bright Moon's meeting room, the blonde was looking over her shoulder and jumping at shadows. She was paranoid in a way that she never demonstrated on the field of battle - with the enemy, you always knew where you stood, but here where you were supposedly safe, you could never be too careful. She stuck close to her friends, even wedging between them and using the pair as shields, looping her arms around Bow and Glimmer's shoulders as she offered a big, sheepish chuckle.

"Ha haaaa, we sure showed them today, didn't we?" She beamed, her ponytail whipping back and forth as she looked from one friend to the other. "Hey, I have an idea - how about you two report in, and I'll go help our soldiers make repairs? I mean, those mechs definitely did a number on our transports. I bet I'll be busy all night fixing things!"

"Don't be silly, Adora, that's why we have mechanics!" Glimmer beamed, wrapping an arm around Adora's waist and dragging her steadily along. She remained completely oblivious of her friend's discomfort, smiling brightly as they trotted along as a group of close, supportive friends. "Besides, you were the big hero tonight! You should be the one to tell Mom all about it!"

"Yeah, I bet she'll want to throw you a parade after this one!" Bow chimed in with a smile all his own, mirroring Glimmer's enthusiasm. "She's always so happy to see us come back after a big win. Usually especially happy to see you, Adora!"

"Yeah, well, that's…that's just…" Adora fidgeted, biting on her bottom lip and shuffling her feet. Not that it did any good - her friends were still pulling her straight towards the big double doors

at the end of the hall. “I mean, must be because of how much She-Ra is helping. I don’t--I don’t have any idea why else she might like me.”

In truth, she absolutely had a few ideas, and each one of them made her more and more nervous. Regardless of her subtle and modest protests, Adora was soon brought before the meeting room door, and before Glimmer even lifted a hand to knock, a voice escaped from within. It was Angella’s regal and commanding tone, calling out to the trio with her usual blend of dominance, authority, and motherly care - and upon hearing it, Adora actively trembled between her friends.

“Glimmer, is that you, dear?” She called. “Is Adora with you? How did it go?”

“It went great, Mom!” Glimmer shouted right back through the door, practically giggling. It always filled her with such delight to bring back news of a job well done to her demanding, ultra-critical mother. “We were just coming to give you a full report!”

“Don’t bother, Glimmer, I trust you entirely!” Angella yelled right back, and for a fleeting moment, Adora breathed out a sigh of relief. At least until a follow-up command chased the older woman’s voice, sending another shiver down the blonde’s spine. “You and Bow should celebrate with the troops, but send Adora in to see me. There are…matters that we must discuss.”

“See, Adora? She wants to keep you in the loop for her super secret plans!” Bow beamed, as he and Glimmer stepped slowly away from their friend. The two offered supportive thumbs-up in Adora’s direction as they walked away, with Glimmer offering a big, toothy smile that bordered on obnoxious.

“Take care, Adora!” The princess called. “We’ll catch up tonight! Don’t worry, we’ll save some of the party food for you!”

And just like that, the pair were dashing straight down the hall again - ready to join the soldiers they had just fought alongside. It

was a celebration that they always seemed to relish, delighting in the opportunity to stand shoulder-to-shoulder with their allies, feasting and drinking and telling stories about the battle. For the tomboy princess and the son of a pair of academics, it was a chance to stretch their wings and be among the common people. And Adora - despite having lived her life as a grunt soldier for the Horde - was left out of the festivities in lieu of a personal meeting with a queen. The blonde gave a soft sigh, lifted her hand up to adjust the collar of her shirt, and slowly whispered to herself as she stepped forward.

"Chin up, Adora, you got this." She braced herself, preparing for what she knew was coming. "It's…it's a little weird, yeah, but it's not all bad. It's just…just…whew. I'm so in over my head."

As she finally pushed the door open and stepped inside, the soldier had an errant thought - perhaps she should've stopped to grab a shower and a change of clothes before her meeting with Angella. Ultimately, though, she knew it didn't matter.

The queen lewdly and viscerally thirsted for her blonde champion no matter what state Adora approached her in.

Adora was barely three steps into the meeting room before Angella was upon her, looming tall over the younger woman with her wings spreading out in a show of eye-catching glory before folding once more against her back. Every time Adora saw her, there was still that moment of awestruck wonder upon seeing her - the queen of Bright Moon, the woman that had been painted as the worst monster lurking in the shadows to all children of the Horde. Adora had been taught from her youngest memories to fear Angella, and now…now she had to contend with how the taller woman stretched out a hand, inviting herself to slide feather-soft fingers underneath her chin, tilting her head upwards to regard her.

“So my hero’s returned victorious once again.” Angella observed in her cultured voice, lifting a brow and stepping an inch closer. With the door already at Adora’s back, Angella prowled forward to pin her against it - soon moving so near that her elegant bustline was just below Adora’s gaze. Her hand shifted from the girl’s chin to her cheek and then finally up to her soft locks of blonde hair, even going so far as to pinch the ponytail and playfully wobble it back and forth. “I suppose you’ll want your reward now.”

“Uh…n-no, that’s…that’s okay, Queen Angella.” Adora gave a sheepish chuckle, lifting her hands and forcing a smile. “If…if it’s all the same to you, I think I might join the others an--okay, you’re just…you’re just not even listening.”

Adora was right - she wasn’t. While the hero was doing her best to weasel out of her responsibilities, Queen Angella had darted her head forward, seeking out the younger woman’s throat for a series of eager and intensifying kisses. Adora’s quivering whimper passed underneath Angella’s lips, which simply smiled and unleashed a heated breath of aroused air across her sensitive flesh. The wings of Glimmer’s mother soon fanned out - stealing the sight of the rest of the meeting room from Adora’s gaze, and Queen Angella’s hands began to slither forward in a similar groping, all-encompassing fashion. Adora almost immediately began to writhe and squirm as she felt her best friend’s mom grasp at her, kneading fingers at her sturdy chest, teasing along her waist, even loosening her ponytail even further to let her hair cascade out. It was all overwhelming in its own way, but it was nothing compared to when Angella slid one leg forward, nestling her knee just between Adora’s thighs to gently grind back and forth.

“F…Fuck…” The younger woman whimpered, and for the first time reached out for Angella, bracing her hands on the other’s biceps. She didn’t dare try to push the queen away, but she simply held on as something surged below her waistline, a twitching, growing cock that always had a way of betraying what she wanted. She might not have been a fan of Angella’s eager groping, but…her dick was, and it was tricky to get out of her royal responsibilities

when she was rock hard and aching. "A…Angella, it…we really shouldn't, Glimmer might find ou--"

"Oh, I'm sure she will, once you help me give her a little baby brother or sister!"

"...do what now?"

From there, things were little more than a blur to poor Adora. The radiant queen dropped down to her knees, her wings sweeping along with her as she shifted her hands squarely for Adora's crotch. In seconds the blonde's belt was pulled away and her pants were forced firmly down to the floor, only for her cock to pop free from its prison and tumble forward. As soon as it did so, Angella first greeted it by caressing the shaft with her cheek, eyes looking upward to fawn over her knight before tilting her head to offer the first of what would no doubt be many, many kisses. Before long she was fondling Adora's sack, massaging her balls as she started to take her inches into her royal mouth, sliding her tongue underneath the shaft and letting it dance all the way down to the most sensitive, ticklish spot. A slow slurping noise filled the air and even the resistant Adora couldn't help but lose herself in the first few seconds, her rump bucking against the door before she practically melted, hands stretching out to brace herself against the wall so she didn't collapse into a heap.

"T…This…this is really getting out of hand." The poor thing whimpered, though her voice was so distorted by whines and gasps that it was unlikely Angella even understood her - and even less likely that she'd care if she did. This was Bright Moon, after all, and whatever the queen wanted, she took. Adora was simply fortunate to have a position of such regard as the royal toy.

After Angella went down on her for a few long and lingering moments, the queen allowed her cock to pop free of her mouth, only to swiftly wrap her fingers around it in a tender grasp. She continued to pump Adora back and forth with spit-coated fingers as she purred, her free hand slithering further upward across the girl's belly, creeping under her shirt to fawn over her abs. From

time to time she let her lips purse to peck at that glistening cocktip, but otherwise let her voice creep out in a sultry, yet still commanding tone.

"Here's what's going to happen, Adora…" She spoke in a matter-of-fact fashion, knowing full-well the authority she commanded. One arm stretched outward to point at the table where the council met, the very same place all the princesses held their morning meetings at. "You're going to lay down and I'm going to ride this perfect cock of yours. I'm going to fuck you as hard as I can, and you're going to cum in me as deep as you can. And then we're going to do it again…and again…and again…just to make sure you knock me up. Understand?"

"Angella, I barely understand a fucking thing about what's going on."

The queen simply chuckled before standing up with a flap of her wings, and slowly shifted on a heel to begin walking - leading Adora by means of that slippery, snug grip on the younger woman's cock. Adora just followed along with a pathetic whimper again escaping from her, and that noise only intensified as waves of pleasure tingled through her shaft into the rest of her sturdy body.

This was almost as bad as Shadow Weaver's private lessons back home. At least Angella didn't put anything in her ass.

***

Despite her reputation as a kind and benevolent ruler, one quality that Angella didn't possess was patience. No sooner did Adora lay down on the meeting table did the winged woman mount atop her, reaching down to hook her fingers against the seam of her form-fitting royal outfit, pulling it aside to leave her mature, smooth pussy exposed. As she crouched over Adora, she made sure to position herself in such a way that she was hovering mere inches above the younger woman's dick - while at the same time, ensuring that Adora could see just how wet she was. Those pink

folds were absolutely glistening with arousal to a downright impressive degree. There were probably plenty in the kingdom that thought her to be a sexless, old spinster since Micah's passing, but the evidence was right in front of Adora's nose that the truth couldn't have been any further.

"Just look at that pussy, Adora." Angella purred, and slid her fingers down to spread herself and lowered just enough so that Adora's tip touched faintly against her entrance. By pure instinct Adora rose her hips up in an attempt to lunge forward, though Angella quickly bobbed upward to dodge, and waggled her finger with a royally smug smile. "Ohh, no no no, not until I say you can have it, dear. I want to savor this."

Adora bit down on her bottom lip, reaching out with both arms to brace against the table where she could. What followed was something that actively reminded her of Shadow Weaver's own private lessons back home, when the old witch would force Adora to refrain from responding while she was sexually teased. Back then, it was while her adoptive mother forced her to endure while she was edged by tendrils of shadow. Now, it was while Angella brought her gloriously warm, inviting pussy down over her cock a mere inch at a time. Angella's descent was slow, pushing down to the midpoint over a matter of two full minutes, and through it all Adora's breath was caught in her throat while she watched her still-hard cock tremble the entire time. She was twitching, pulsing, practically aching to claim that older woman down to the hilt, and still Angella seemed to delight in making her squirm. It wasn't until the woman's glorious wings flared out only to force her downward did Adora finally get some semblance of relief, but even then it came in the suffocating, overwhelming sensation of suddenly being forced to hilt Glimmer's mother.

"Ahhhh…~" Adora practically convulsed below Angella, having gone from teased and half-stuffed to completely filling the older woman, feeling her well-practiced muscles squeezing every inch of her cock. Angella wasn't of a mind to give her a break, either, for as soon as she landed onto her knees to properly mount the girl, she started to ride as hard as she could. As at it turned out…that

was pretty fucking hard, considering how she used her wings to gain momentum and lurch herself back down. Adora's breath was forced from her chest through a series of weak and wilting squeaks, and before long Angella stretched all the way down, grasping the blonde's wrists and pinning her to the table with a playful smile spread on her face.

"That's it, Adora, that's it! All the way inside!" She laughed, while using her wings to ensure that Adora never fucked her anything less than that. "And when you cum, if you even think about pulling out, I'll have you thrown in the dungeon! That's the only fitting punishment for a royal breeder that refuses to fulfill her duties!"

"R-Royal breeder?!"

Adora might've been shocked by her new title, but she was powerless to stop Angella from appointing it to her - just as she was powerless to launch the older woman off before the inevitable climax. Those powerful wings kept flapping in such a way that the older woman effectively crashed into her with every beat, gripping her all the way down to the base where her deepest walls gave a fierce, snug squeeze onto Adora's unit. Despite the fact Angella was so much taller than the blonde, she was a remarkably tight fit for a meaty unit like Adora's, and the hero whimpered as she started to feel the sudden rush of a failure of resolve - she was racing towards her peak now, milked by the mother of her best friend. As she bit her bottom lip and a strained expression overtook her face, Angella practically roared in delight, squeezing Adora's shoulders as she redoubled her efforts. Before long, the very table was shaking and rattling with every thrust, and the sound of sticky, wet flesh on flesh filled the air around them - right alongside the woman's regal voice as she begged, or rather demanded, that Adora breed her.

"Hurry, Adora, hurry! The sooner you fill me up, the sooner you can fuck me again!" Angella's eyes were wide and frantic, an almost crazed look replacing her usually serene expression. She even darted her head down to give the blonde a hungry kiss,

tongues briefly twirling before pulling back with a long line of spit connecting their lips. It soon broke and lashed against Adora's cheek once Angella cried out again. "Pump every drop of your cum inside me, Adora! That's an order from your queen! Let's make a new princess, Adora!"

It all proved too much for Adora to resist. With a sudden cry and a lurching thrust from below, Adora pounded forward to lodge her cockhead to Angella's womb, split-seconds before unloading. Her balls trembled and pulsed as her shaft unleashed spurt after spurt of cream, plastering the walls of the queen and bathing her nethers in sticky white spunk. Through it all, Angella absolutely purred in orgasmic delight all her own, her grip tightening and loosening upon Adora multiple times throughout, her wings casually flapping and her chests heaving a few inches above the blonde's face. She swung her hips from side to side as a few lines of nectar oozed out from between the seam of her pussy and Adora's cock, only for her to gobble it right back up by pushing her hips downward and squishing their bodies together anew.

"Mmm…well done, dear." Angella soon cooed, pulling Adora's head from the table so she could kiss her once more, this time with fingers soothingly passing down the back of the blonde's head. She definitely beat Shadow Weaver in terms of aftercare. "Let's go back to my bedchamber, hmm? We wouldn't want to make such a scene that Glimmer discovers what you've been doing to her mother."

Adora simply whimpered, and as she was cradled against the queen of Bright Moon, finally gave an exhausted nod. A blush had overtaken her cheeks as she allowed herself to be fawned over - touched by the queen with such delicate affection, invited to share a bed with her through the rest of the night. As Angella elegantly slipped off of her lap to stand once more, Adora scooted to the edge of the table and hopped to her feet, rubbing at the back of her head as she finally murmured to the older woman.

"So, uh…" She coughed into her hand and nervously shifted, watching as Angella's pussy lazily dripped cum across her smooth,

perfect thighs. “You were…uh…you’re just kidding about that Royal Breeder stuff, right?”

In response, Angella’s wings flared out before folding against her back once more, feathers nestling into place. She stretched out with both hands - one moving to hold Adora by the chin and the other cradling just underneath her still-hard shaft, squeezing both as she cast a tall, looming, intimidating shadow over the other girl.

“Would you rather be called the Queen’s Personal Pet?”

As Adora was left basking in Queen Angella’s presence, a tiny shiver ran up her spine, and she squeaked out a few words in a meek, almost timid voice.

“...either one works, ma’am.”

After all, she wasn’t about to question her queen.

The End.
