Take 69

by Anonymous

Summary

A-Listers Bow and Glimmer get married because that’s what celebs do when they’re trying to break the internet. If the tabloids and podcasts are anything to go by, it’s working pretty well.

Then they decided to make a home movie and break the internet even more!

-

Earth/Human/Modern AU, but they're celebrities. I thought it would be a fun prompt! Just a oneshot smut, as per usual for you heathens.

Notes

Glimmer's like "hey lets get married as friends, it'll be so funny! wow the internet fucking exploded! quick, let's make a sex tape to troll everyone a little more!"

See the end of the work for more notes

"*Hah! Hah! Bowwww, pleasepleaseplease-!*"

Aunt Castaspella stared down at her tablet, eyebrow raised, a glass of scotch in the other hand. She didn't look too offended, but she didn't look too much of anything else either. Maybe a little confused?

"Well, the outfits were cute, I'll give you that." She took a sip of her scotch and set the tablet down, not even bothering to pause it before pinching the bridge of her nose.

Glimmer's aggressively loud moaning filled the kitchen, and she awkwardly drummed her fingers against her dress. Body positivity and all that, she's totally fine with the entire world seeing her getting railed- but it's still her *aunt Casta.* But she's also her manager, and Glimmer trusts her more than anything. It's important to hear what she has to say!

She doesn't know how to answer whatever that comment was, though. "You don't like it?"

"As an aunt, hell no." She finally turned the device off, and leaned back in her chair, taking a moment to think of her next words. "As your manager, also no. It feels stiff. Also, *Teleportation*? You were really making love to *her own song*?"

"Hey, it's catchy! And it helped me keep the beat." Bow was there too. He wrapped an arm around Glimmer's waist, pulling her snugly against his side. "But we worked really hard! She worked really hard!"

"Well, that's my point, you shouldn't need to keep the beat. And missionary, really? I mean, I can't tell either of you to do something you're not okay with, it's just…" She made a *meh* gesture, an exaggerated shrug, to drive her point home. "I can barely see either of you with the camera above Bow's back, and it's blocking out a lot of the ceiling light too. None of this is going to fly."

Bow nodded like he was trying to pay attention at a college history lecture. “Fair points, fair points.”

Glimmer scoffed. “What do you mean, stiff? I had a lot of fun. You did too, right Bow?” She wrapped her arm around his waist like he’d done to her, and smiled up at him.

“Yep!”

“Sorry, sorry,” Casta tapped her nails on their marble counter, and tried to relax herself. “I’m not going to tell you what to do with your own bodies, that’s not right, is it? But from a viewer standpoint, it might feel a little…”

“Okay, fine, fine.” Glimmer could smell their dinner almost finishing- oh, her chefs were there for this whole ordeal too!- and she just wanted this conversation over with so they could eat. “So, do you think we should try it again?”

Casta scooted her chair in to the table, sensing the same thing Glimmer had. Spaghetti was coming and she’d rather not think of her brother’s daughter getting railed while she ate. “Yes, yes. But make it feel like it’s the first time you filmed it. And for god’s sake, don’t try so hard.”

Bow let go of his wife, and pulled a chair out for her as their chef started carrying out plates. What a gentleman. He was like that in bed too, always asking her if she was okay. “M’lady!”

She pulled his chair out too, chuckling. “M’lady,” she copied, before they both sat down. She’d have to admit it later to just him, when it wouldn’t be totally inappropriate, that she was totally thrilled having another excuse to fuck him.

-

“Okay, so this one’s working,” Bow fiddled with the camera at the foot of their bed. “Lay down, would you? I wanna see if you’ll be in the frame.”

Glimmer did so, leaning back against the pillows comfortably, twirling a wrapped condom between her fingers.

Bow looked through the camera's viewing screen, and yep, there she was. Blurry nails laid against her breasts, flashes of silver condom wrapper between them, camera slightly out of focus further away. Her other hand was up towards her face, a long nail caught in between her glossy lips as she tried to be sexy. The hues of her hair all blended together, and all Bow could think is that film Glimmer was nothing like the real thing. She was so much more beautiful when he looked up at her.

"God, you're so hot in pink." He made his point by lifting up the top of a pink stocking, and letting it snap back into place. "Heh."

"Ah! Bowww," she laughed, pulling the hem back where it was supposed to be, tight around the top of her thigh. "Why thank you!"

"This one's good," he said. His last glimpse through that camera was her shifting her thighs in a way that made him want to squeeze them. He swallowed hard. "*Really good*."

He stood from his crouch and moved to one side of the bed, and the whole thing was in view from cam two. That made it easy. Which is good, because now she's slowly rolling over on her stomach, arching her back to show off her smooth, well-lit ass. The new lights they got were doing great too apparently.

"Okay, cam two is on." He looked up at the third, all the way up on the ceiling, and decided not to bother. "The guy on the ladder probably knew what he was doing with that one."

"Bowww," Glimmer teased. "If you don't come here and play with me, I'll fuck myself and make you watch instead."

He watched her writhe around on the monitors on their desk now, calling over, "…You gonna do it? Cause that's pretty hot, not gonna lie."

She pouted. “Bow! I want *you!”*

He let out a little laugh and pressed the remote record button. The cameras were rolling. “Coming, coming. Take two in action, yeah!” He ran towards her, but didn’t quite take into account his socks on marble flooring.

She looked up at him with sparkling blue eyes, quickly hopping up on her knees as he approached. She reached out to him for support, their soft mattress being almost impossible to balance on. “Bow!”

He kept slipping on his socks, and she was falling off the bed. They came to each other’s rescue, propping each other up in a hug.

Glimmer leaned her forehead against his. “Aww, are you falling for me?”

They locked hands by their sides as they pressed together, him standing at her bedside, her kneeling as she leaned into his touch. Her kiss was in the shape of a smile, pillowy lips against his, giving him one light smooch after another.

“Maaaaybe I am! Corny.” He lifted their entwined hands, breaking one away to tug at her bra strap. “That’s gotta come off. It’s cute on you though!” His other hand broke away, and both of them held her tits, thumbs rubbing at the lace across them.

“Yeah?” Glimmer let out a giddy little chuckle. “You wanna strip me?”

She leaned back a little and scooped up the hair dangling behind her, giving him access to the clasps. Instinctively he reached around to her back, but not before pulling her body flush against his bare chest again.

“Oh! Heh.” Glimmer could practically feel how red her face was. Her natural blush probably glowed through her foundation.

"You're really solid, you know that? My guy Dwayne could break a fist punching your chest- oh wow, did I just say that? Sorry."

"We're gonna have to edit that out," he chuckled. "I don't think he'd appreciate it." He was as solid as weak ass scissors compared to The Rock, but it's whatever. People say stuff that doesn't make sense when they're jittery.

For editing sake he paused, then began unclasping her bra and getting back into character. Well, if this even was a character. It's Bow, but a high-performance Bow. "I missed you at work all day."

Glimmer could practically hear the smile in his voice and it made her want to explode. "Mmmh, you're so warm, I missed you too!"

Her arms hooked under his, wrapping upwards, and her hands found purchase in his short box fade. She rubbed the fuzzy back of his head, trying to tug him down.

"I was so lonely at the studio without you. Kiss?" She pouted up at him.

He unhooked her bra and it hung between their pressed bodies, concealing Glimmer's-

Well, it was hiding her tits until Bow pulled it out. "*Jeez,* you're so pretty." Obeying her command, he kissed her as soon as he dropped the bra god-knows-where. They were going to trip over it later for sure.

Her tongue pressed against his, and her smile was back as he tugged the sides of her panties. He was just teasing, offering little brushes against her hips. Glimmer held tension there, he could feel it in each sudden inhale when he picked at the fabric.

When they broke for air, he asked, "Can I touch you?"

"Mhm!" She nodded, and shuddered when he smoothed his broad hands across her hips. That felt more than right.

Something she never thought about was how small touches made the sex worthwhile. She had partners of all genders and shapes-some were good, some were okay. Some took their time and touched her like Bow was doing now, and some cut to the chase and did the bare minimum. He went over the swell of her hips, the tops of her bones, and back down to where you'd normally hold someone. He was so careful with where he placed his fingers, his thumbs in just the right spot where her stomach met hip. She wished she always cared about this sort of stuff.

He swiped his thumbs back and forth across the sensitive skin, and swallowed a sharp little gasp she made, engulfing the sound with his kiss. "I'm barely even touching you," he smirked against her, like he'd somehow read her mind.

"That's gotta change, like, right now."

Taking the cue, warm hands found their way up to her waist, then behind to her absolutely perfect ass. "Like that?" He gave her cheeks a squeeze, and she let out an adorable little squeak.

"Yeah," she breathed. Up by his ear, she whispered, "Can I touch you too?"

"Duh." His eye twitched when she bit his ear. Sexy ASMR from Glimmer could make any grown man nut, but he has to be a fucking sex god right now if he's going to make this whole thing interesting. His body goes rigid and he gulps. "O-*oh.*"

"Hm? Oh, but *I was barely touching you*." Her lips curled into a smile, and her eyes had this devious glint in them when she pulled off of his neck.

Is she challenging him? Ohoho, that minx! Now it was an unspoken thing: first one to cum is a little bitch!

She unhooked her arms from under his shoulders and pulled them inside their warm little hug. "I'm only just getting started with you," came her purr, lust slurring her voice into a low, quiet lull.

Her hands slinked up his abs, solid pecks, dancing up his collar and his neck, and finally came to rest on his face. She held his cheeks as she pressed her hips forward, bumping her crotch into his bulge.

Is it possible to get so hard you break all the seams on your underpants and bust them open? Is it possible to grow twelve inches? That's the way Glimmer's making him feel, and all he can manage is labored breath, and guiding her by the ass as she rocked back and forth. Bow straddled the line between needing her *now*, and wanting to draw it out.

"Where's that totally not shady porn ad when you need it? The one that says you can last hours with that one simple trick?" Bow's voice cracked a couple of times.

"It's all just psychology I think. You're in control, right? You have to want it bad enough." Glimmer leaned up to his ear again, and let out a little moan.

Ohhh, okay. It's all subtle direction from her. "I'm in control, huh?" He pushed her backwards, lightly enough for her to fight back.

She fell, purposefully, hair spilling out around her like some medieval oil painting halo. A pink angel, sand colored skin- that felt like a fitting description. "Bow!" She feigned surprise, making the sluttiest bedroom eyes at him.

"You were really pushing my buttons humping me like that," He reprimanded, sinking down to his knees at the bedside. "Scoot forward a little?"

Glimmer did so, right until her knees almost hit his face. "Yeah?"

There was a bit of awkward shuffling. Gravity tried to pull her down to the floor, with her ass hanging off the bed like that. There was a struggle going on between Bow and a pair of lacy panties, and she wasn't sure who was winning until she felt them fall off her knees and land somewhere around her ankles.

After that victory, Bow lifted her thighs, and promptly dropped them on his shoulders. “Anyways. Now you’re gonna pay for it,” He joked. “You comfy up there?”

She nodded quickly, the blush returning to her cheeks with a vengeance. “Yeah, yeah,” she answered. “Isn’t eating me a reward?” Her mouth watered at the thought of it.

“Maaaybe,” Bow trilled. He’d usually ask her before he did anything down there, but for the sake of a good show… well, they had a safe word.

He kissed her pearl, sucking it for half a second, earning him a shrill gasp.

“Ngh! Wait wait, pineapples!” Ah, there’s the word.

He lifted his head, meeting her gaze as she sat up on her elbows. “Yeah? Are you okay?”

“Yeah, yeah. Just,” She held his hair affectionately, her face going absolutely red with desire. “I didn’t *not* like that, but… I’m thinking.”

He held her hand up there, smiling while she caught her breath. Her thighs were soft as pillows, he could just lean his head into one… “What’s up?” And he did, nuzzling into her flesh.

She giggled and her nails turned into a glorified head massager, scratching his scalp.

“Spice it up, maybe?” She smiled. “You’re already hard, so you warm me up a little and then fuck the shit out of me. I just think we could do more, what do you think?”

“I wasn’t gonna let you cum, if that’s what you mean.” He deserved that gentle slap. “Oof,” He chuckled. “I like it. Sorry, caveman brain took over and I just had to get to the coochie.”

That was a cursed word and he cringed as soon as he said it.

“You,” Glimmer’s gears were turning, “You wanted me so bad you weren’t thinking?”

“You’re really putting me on a pedestal, Glim. I’m not great at this.” He rose to his feet and held out a hand to pull her up.

She took it, and he lifted until her feet were on the floor.

“But you are!” They were already close enough to touch, so she stood on her tallest tippy-toes, and wrapped her arms around his neck. “You’re *so* good! I didn’t mean to interrupt you and make you feel bad.”

That did kinda make him feel better. Glimmer had so much sex appeal it was like a superpower. A woman like her can have anyone, and she said *he* was good? “Nono, I get it,” He smiled a little, pulling her by the waist. Now they were hugging, just like before. “You’re thinking ten steps ahead.”

“I really *was* having a good time! If we didn’t have to worry about performance I’d… Well, anyways. Take three?” She sank down from her toes, walking back towards the monitor.

Bow started smoothing out their duvet, and tried to think of anything that would turn him soft again, so they could start over from scratch. *Microfiber. Cheese. Clowns.* “You need help getting dressed or anything?”

“Actually, maybe we can splice a bunch of stuff together instead of like, redoing it all?” she called, stopping the recording. “I wasn’t exactly acting, you were just really warm and soft and I wanna leave all that banter in.”

That reversed his attempt to go soft. He flushed a bright pink and thought it over- “you *missed me?* Like you went to work and thought about me?”

“Yeah?” She giggled when she saw the state she’d got him in. “I think about you a lot, doofus. I like you!”

That shouldn't be a surprise. They've been friends for a couple of years now, wouldn't she always think of her friends? "Aw, shucks."

"No, really!" She started the recording again and padded over, stockings sliding all the way. "You're really, *really* sexy. And so sweet! I like spending time with you!"

"That, uh, that didn't click in my head until you said it." Bow was all flustered, dark hazelnut skin turning cherry red across his nose and cheeks. "Oh god, I'm a moron."

They wouldn't have gotten PR married if she hated his guts, she wouldn't have ever fucked him if she wasn't attracted to him. Her liking him was a fact, it had been there all along, but he didn't seem to think too hard on it.

She slipped, and fell on the ground with a thud.

"Woah! You good?" He was only a few steps away, so he took them, and fell to his knees at her side.

Glimmer didn't look hurt. Instead of nursing a sore knee or something, she rolled over on her back and *laughed.*

It took him by surprise. "Glim?" After the shock wore off he laughed too. "Aww, Glimmer's got a crush!"

"You," Her frame shook with laughter so hard it was silent. "Dumbass."

He tried to take a couple of deep breaths, and finally, his laughter petered out into light chuckles. "I really am. I-" he panted, "I really like you too, I was just too caught up in liking you to notice you liking me."

"I guess I should've been honest," she started to calm down too, and cracked a smile at him from down below. "You ready to get started again?"

He nodded frantically and helped her up. “Okay! So, how should we do this?”

“Super sexy montage time?”

Oh, he knew what that meant.

Take 3!

“Okay, I don’t know how great this is gonna work, but let’s try it.”

Bow’s cock was already slick with spit, lipstick all the way at the base. He was laying against the pillows, sweaty and panting. “*Hurry,*” he practically whined, voice cracking. “You’re giving me blue balls, woman!”

Glimmer was already a mess too, hair tousled and sweat beading on her forehead. “Just a second!” She chided, unwrapping one of their condoms. “Like I said, this might not work.”

Then, she placed it lightly between her teeth, trying to stand the thing upright in her mouth. She moved quick since the thing could fall out any second, and leaned her head down to his cock again. Maximum effort!

She sank her lips around him, and almost immediately swallowed him whole. Bow inhaled sharply, leaning his head back as he tried to stave off an orgasm for the third time.

“Glimmerrr,” He hissed, reaching for her head to hold it down, like he instinctively would for a blowjob.

Almost immediately, she gagged and came back up for air. She coughed and spat, holding her throat. “Ack! Fuck!”

“What were you even trying to do?” Bow reached up to hold her, spotting their condom, all gross and slimy on the sheets. “Are you okay?”

She nodded, coughing a couple more times. “Yeah,” she said hoarsely. “I was gonna put it on with my mouth.”

“You choked on a condom,” he joked. “What if that’s how you died? Everyone would remember you went out swallowing rubber.”

She gave him a light smack across the arm, before reaching over the side of the bed, and onto the floor for her water. “I’ve got more in my nightstand, can you grab one?”

There was a shuffling, the sound of wood drawers moving, and then a, “What’s this one do?” He had another condom, but also one vibrator out of a collection of many.

She swallowed her water and coughed a lot less harshly this time. The back of her hand came up, wiping sweat from her brow as she tried to calm down. “That’s a precision wand or something. It goes on my clit, it’s got a bunch of different little detachable heads that can do stuff.”

He raised an eyebrow. “Can I try it on you?”

Take six!

“Say you’re an idiot who choked on a condom!”

“Never,” Glimmer bantered back. Her vibrator powered up again, the small bead at the end languidly dragging across the hood of her clit. Her eyes practically rolled back. “*YESSS, don’t fucking stop!*”

She sat in Bow’s lap, and he gently stroked her cheek and let her hold on to that false hope. He’d been cruel many more times before this, shutting it off at just the right time to earn him a few choice words. He circled the thing just under her clit and tugged it upwards ever so slightly. His fingers spread her labia more, exposing her lewd, dripping cunt to the camera at the foot of the bed.

Right there! That was the game-end spot. Glimmer threw her head back onto his shoulder and moaned in his ear. "I'm gonna," she warned him. "Gonna c-cummm!"

And then he switched it off again.

"Asshole!" She was absolutely living for it though.

She huffed, fresh mascara raining down her cheeks, and she grabbed his head. She kissed him, hard, forcing his lips apart in an animalistic display of pure lust, practically growling into his lips.

"Turn it on. NOW."

He complied, but the vibrator didn't. A few clicks, a desperate whine from Glimmer, and… nothing.

"I- Fuck, it's out of battery!"

Take 12!

"You got any fours?"

"Nah, go fish."

Take 22 (retitled to 69 for humor)!

"Are you into pegging? Like, it's cool if you say no, but," Glimmer rambled, laying on his chest. "I've always wanted to try it."

The fan by the bed oscillated towards them, and Glimmer happened to sit up at just the right time. There she was, shining with sweat under chandelier lights, starlight from the outside behind her. The wind blew her hair out too. She was so perfect it hurt, and Bow laid there in awe of her.

"Permission for emotional honesty right now?"

Glimmer's eyes were fixed on wherever as she stretched her arms, but she looked down at him. "Yeah? Go for it."

"I'm bi," he said quietly.

She raised an eyebrow. "Me too? More like pan. Pan pizza?" She rambled on, laying back down on him. "You want me to order one? Sorry, sorry, you were saying?"

He rubbed her back when she nestled into his arms again. "You're the first person I've told. And, um, not that the two are connected necessarily, but I've always wanted-"

"You want it in the ass? Just say you want it in the ass." She leaned up to kiss his neck, reassuring him, "You feel like it's not safe to come out to your fans, and especially not your team. I've seen it before, I get it. But it's not a big deal to me, Bowie."

"I-" He stuttered. "I mean I knew you weren't homophobic, I just wasn't expecting you to take it so well." His hands tangled in her hair, rubbing the nape of her neck.

She hummed sweetly, cuddling into him more. "Want me to set you up with Seahawk? He'd be a great boyfriend."

"Why would I do that? We're *married."*

"Celebrity married," She shrugged against him. She secretly hoped he was going to say it, mentally crossing her fingers. "You can date whoever you want on the down low, I'm not gonna stop you."

"But, but- what if, hear me out, we're exclusive? We got married on a whim, so we just like, fall in love and let this whole thing happen?"

There it was. She looked up at him with glittering eyes, hands cupping his cheeks. "Yeah? So can I ask Seahawk to fuck both of us, then?"

He snorted. “Dingus. This goes without saying, but like, erase this part when we’re done?”

She stretched and leaned back up again, nodding. “Yeah, yeah.”

“Then let’s put a pin in this talk, cause I think we need an epic finale already.”

“Your balls must be so blue they’re killing you.” She could’ve been an actor with how quick she was able to snap back into the mood. She was sparkling again, hopping off his lap and sitting pretty on the bed. “What were you thinking?”

“Well,” He smirked, thoughts of what he could do to her reeling through his head. “Reverse cowgirl, but sitting up?” He sat up on his calves, reaching for the fresh condom they’d gotten who knows how long ago.

He unwrapped it as she crawled closer, watching her try to adjust over his lap backwards. In front of them was her much bigger hitachi vibe, still plugged in from an earlier scene, and she snatched it up.

“Hold this for me?”

He did, sliding the condom over his cock with the other hand. He looked in the mirror at them both as they got ready. “We’re so sexy,” he joked, a little more tired now that the sun had started to come out around them. They’d really been at it all night.

He cupped one of her tits with his free hand and watched her in the mirror. She raised herself up on her calves, over his shaft, and then slowly lowered herself on.

“Mngh-!” she shuddered, reaching back with one arm to hold his head. “Kiss me?”

“With pleasure,” he bantered as she got comfortable.

They kissed sloppily, tongues on full display in the cameras. She let him explore her mouth, moaning into his when he powered up her vibrator.

"Ahnn- Hnn- BOW," her voice rumbled with her toy, and she immediately started raising herself up and down for more friction.

He whispered something encouraging into her lips. "You're doing so good right now, just like that."

"This, you," she struggled, a wave of pleasure shaking her every time she lowered her hips. "You're the best, best fucking lay. Ever. Ever ever."

It took them practically all night to get here and she'd cum at least four times by now. He spent time stretching her out, exploring her, ruining her until she was nothing but a slutty puddle- and now she was starting to lose it.

She'd always had this kink someone would fuck her so good it would wipe her mind- only for a few hours, of course. Just as she might've realized it, that thought was gone, replaced by an animalistic, howling moan.

"Ughhhh!" She whined, bobbing up and down faster. Begging to cum would be too eloquent of a thought at this point.

Bow panted, shift in the speed causing him to squeeze his eyes shut and grip her breast harder, kneading the flesh around. "C-can't last very long if you're gonna," he huffed.

He was half-expecting her to say she didn't care, to cum for her like the weakling he was. Or maybe she would've slowed down again and tried to edge him? Nope. Instead, her ass clapped against him as she bounced, shrill gasps with each movement. She was so wet and so ready for him it was easy.

She came suddenly- her little friend in Bow's hand usually did the trick really fast- and she yelled out.

Bow wasn't done. Lust overpowered him and she pushed her over onto her hands and knees, dropping the vibrator. He held her ass and plowed her cunt from behind, biting his lip.

Smack! There's a red handprint on Glimmer's ass now. She yelled out again, gripping the sheets as her tongue fell from her mouth. "Ah!" Her eyes practically crossed, juices squelched between them, her wetness dripped from her like a faucet!

"Glimmer!" Above her, Bow was almost done pounding her into oblivion.

An airy moan escaped her with each thrust. "Please, pleaspleaseplease," Glimmer begged, sobbing from the pleasure. "Fuck me, pleaseeeee!"

Bow gave it his all for a few more seconds, pulling her hair as he nutted. "OH!" He nearly crumbled on top of her afterwards, but managed to stay upright as he bottomed out into his condom. Then, he quickly pulled out and let go of her head.

Her body finally gave out, and she laid down, huffing and giggling to herself. She was orgasming a second time, spasming from the hardest aftershocks she's ever felt. Maybe. Or perhaps she was just delirious from pleasure.

"Heh, I- oh my god, I feel like such a slut."

"You are, but you're my slut."

Warm, sweaty bodies entangled, and the camera kept rolling through a long, deserved nap.

End Notes

Aftercare is implied, duh. I imagine them taking a bath and eating pizza in it. just chilling with pan pizza.

The narrative was THEY released it instead of some stolen tape drama. The whole thing is in their hands and they're not gonna be ashamed by it and I just think that would be a cool concept. We're in an age where people leak their own nudes because we have nothing to feel bad about anymore. Religion is dead, all bodies are beautiful, porn is fun!!

Casta's just there for advice bc I think Kris Jenner telling her own daughter to redo the sex tape is just insane and ironically funny like. I hate the kardashians but PLEASE. So Casta's basically a momager for the humor of it all.

Please drop by the archive and comment to let the author know if you enjoyed their work!
