Bad Ideas Come in Many Forms

by Nny11

Summary

chanting in drunken time Chicken nuggies! Chicken nuggies! Catra will get us chicken nuggies!

“Finish this.”

Catra isn’t quite sure what the fuck that’s supposed to mean. Or, well, okay, she understands it has something to do with the bottle of hard lemonade that Glimmer is holding out to her. But Jesus Christ. It’s not even five in the morning, and she’s too tired to deal with this shit!

So she reaches out, takes it, and starts drinking.

She has been awake for less than twenty seconds, so this has to be a record of some kind.

Glimmer drunkenly cheers along with Mermista and Netossa, starting to slur and chant together, “We like to drink with Catra, cuz Cashra is our friend!” The words get a bit lost but she knows it’s something to do with chugging a drink. “And it was shitty of us to wake her up, we are super sorry about that!” That part isn’t usually in the song but they sing it vaguely in time so it was at least rehearsed.

Wait. Why the FUCK is she listening to this???

Catra stops just as she finishes the bottle and stares at it in confusion before looking up at her friends. “Wait, what the hell is going on?”

Glimmer smiles brightly, makeup smeared and mascara smudged from clubbing all night, “We wanted chicken nuggets.”

Catra waits but when nothing more comes, prompts through a burp, “And WH-uat does that have to do with me?”

Mermista jumps in this time, “You can drive us, I’m paying!”

“Nu-uh, I’m paying.” Netossa confirms. “I can get you chicken strips since you love them.”

Actually, Catra would prefer nuggets to strips, and that does sound kinda good except, "You seriously woke me up for this!?"

"Yeah!" Or at least some approximation of the word yeah or yay. Kind hard to understand them. Fuck the fucking neighbors!

"Come inside, no screaming, it's early! And I can't drive you!" Catra huffs as she drags Glimmer inside, forcing the whole group to enter or separate and happily locking the door tightly. Her stomach is starting to twist uncomfortably as the alcohol on empty stomach registers, she hasn't even had her antacid yet so this'll be hellish. Or fun. She's not sure yet if she's joining in on this late or not.

"Whhhaaaaaat!? Whhhhhhyyyyyyy!?!?!?"

"Cuz you made me drink your fucking lemondae and I'm not drinking and driving!"

The three look at one another before seeming to understand. "Ooooooooh. Shit."

Mermista whips her phone out so hard, Catra is amazed it doesn't fly out of her hand, and speaks with all the drama and gravitas of a seasoned stage actor, "I can order… Delivery!"

Glimmer and Netossa cheer, and Catra washes her morning pills down with a gulp of the ancient sochu she had in the fridge. Probably stupid of her to do, she does not really care, she has to catch up with some idiots and the best way to beat them is join them.

Or something like that.

She still gets nuggets when the order arrives and by the evening she can be viciously happy that her VERY hungover friends had to deal with her drunk ass first thing in the morning. Also she didn't die from mixing pharmaceuticals and alcohol so that's, kids, what you call a win!
