When One Door Closes

by Lost_in_the_mycelium

Summary

Adora is distraught by the kidnapping of her best friends and the loss of the sword of protection. Luckily, the Princess Alliance is here to help! Something about their sudden arrival seems odd though…

Notes

See the end of the work for notes

“What are you all doing here?” Adora asks, staring at her new friends as beautiful flowers float gently through the open window.

Mermista looks casual as always, lounging in the branches of the tree Perfuma conjured. But when she answers her voice is full of conviction. “We're the Princess Alliance. And the Horde took one of our own.”

“We're ready for our first mission,” Perfuma says excitedly.

For the first time since her best friends and the sword were captured, Adora feels a spark of hope. She just has one question.

“Um…why didn’t you come through the front door?”

End Notes

Am I the only one who is baffled by this scene? Like, they come in THROUGH the window, having ridden up on a tree that Perfuma seems to have magically grown specifically for this purpose?? Did they just do it for a dramatic entrance? Is the hallway on an upper level and they didn't feel like taking the stairs? Is there now just a giant tree leading directly to the hallway outside the war room permanently, and is that a security risk? XD
